

## Contents

Foreword	6
<b>Chapter I. Introduction to Database (DB)</b>	<b>8</b>
1.1. Database Concepts and Terms	8
1.2. Data, Information and Knowledge	11
1.3. Digitization and Datatization	19
1.4. Reasons of the Emergence of Databases	22
1.5. Database System (DBS)	24
1.6. What is a Database (DB)?	27
1:7. Database Management System (DBMS) Software	30
1:8. Database Types and History	37
1:9. Database File Mechanisms	44
1:10. Database System Infrastructure Architecture	52
1:11. Database Connection Technologies	58
1:12. How to Select DBMS Software	62
1:13. Database Computers and Total Cost of Ownership (TCO)	66
<b>Chapter II. Database Types</b>	<b>76</b>
2.1. Relational Databases (RDB)	77
2.2. Object-Oriented Databases	85
2.3. XML Databases	89
2.4. Multidimensional (OLAP) Databases	95
2.5. Data Warehouse (DW)	101
2.6. Data Mining (DM)	111
2.7. Text and Web Mining (WM)	120
2.8. Big Data (BD)	122
2.9. NoSQL Databases	135
2.10. ETL Software	137
2:11. Database Reporting Systems	139
<b>Chapter III. Database Management and Security</b>	<b>143</b>
3.1. Data Management Team in IS Department	144
3.2. Database Administrator (DBA) Tasks	147
3.3. Database Security	154
3.4. Database Protection Types	162
3.5. Errors and Recovery Mechanisms in DBS	165
<b>Chapter IV. Database Design</b>	<b>169</b>
4.1. Database Design Process	169
4.2. Requirements Analysis	174
4.3. Entity-Relationship Diagram (ERD)	175
4.4. Normalization in Relational Database	182

4.5. Denormalization in Relational Database	195
4.6. Conceptual Design	197
4.7. Logical Design	200
4.8. Physical Design	202
4.9. Database Design Quality	207
<b>Chapter V. Structured Query Language (SQL)</b>	<b>210</b>
5.1. SQL Basics	211
5.2. SQL Data Definition Language (DDL)	214
5.3. SQL Data Manipulation Language (DML)	216
5.4. SQL Data Query Language (DQL)	219
5.5. SQL Transaction Control Commands (TCC)	231
5.6. SQL Data Control Language (DCL)	234
5.7. SQL Data Administration Commands (DAC)	235
5.8. Transaction Management in SQL	235
5.9. SQL Optimization	240
<b>Chapter VI. Database Developments with SQL Server</b>	<b>250</b>
6.1. SQL Server Database Features	251
6.2. Creating Databases in SQL Server	256
6.3. Creating Tables in SQL Server	261
6.4. Creating Views in SQL Server	268
6.5. Creating Indexes in SQL Server	271
6.6. Creating Constraints in SQL Server	275
6.7. Creating Trigger in SQL Server	281
6.8. Creating Stored Procedures in SQL Server	285
6.9. Creating Functions in SQL Server	291
6:10. Single and Multi-Line Functions in T-SQL	292
6:11. Relational Algebra Functions in T-SQL	298
6:12. Database Administrator Commands in T-SQL	303
6:13. Program Development Commands in T-SQL	306
6.14. XML Commands in T-SQL	310
6.15. Performance Optimization in SQL Server	312
<b>Chapter VII. DB Application Developments with Access</b>	<b>316</b>
7.1. Access Database Features	317
7.2. Creating Database Applications in Access	320
7.3. Creating Tables in Access	324
7.4. Creating Queries in Access	327
7.5. Creating Forms in Access	329
7.6. Creating Reports in Access	337
7.7. Creating Macros and Modules in Access	340
<b>Chapter VIII. Database Philosophy and Suggestions</b>	<b>344</b>
Epilogue	348

Abbreviations	349
References	353
Curriculum Vitae	361
Author's Other Books	362
